Personal Projects

Android Fitness App
- Built an android app that helps users with workout/food plans.
- Used firebase database for the users to login to their Fitness App account and to get users feedback through firebase.

Android Game App
- Built an android studio game app that deals with sprites, functions that implements sprite sheets to work with the games movements as well as using firebase database to communicate data through code.

Professional Summary

As a recent computer science graduate with a diploma in computer programming and experience as a Covid-19 Testing Assistant and Tester, I am highly skilled in Java programming and proficient in coding in other languages. With a passion for coding and a dedication to delivering high-quality work, I am seeking a role where I can apply my technical skills and knowledge to drive innovation and improve systems. As a former employee at Sobeys, I have also developed strong communication and teamwork skills that enable me to collaborate effectively with colleagues and clients.

Work Experience

September 2021 – December 2021
Student COVID Assistant and Tester, Trent University (Durham Campus) - *Patient Care Specialist*

- Administered COVID-19 tests accurately and efficiently
- Recorded test results with attention to detail
- Communicated testing process and results clearly and professionally to patients
- Managed patient flow and ensured efficient testing procedures
- Followed safety protocols to maintain a clean and hygienic work environment
- Collaborated with team members to deliver timely and accurate testing services to the Trent community

September 2022 - April 2023
Sobeys Peterborough Lansdowne - *bagger/cashier*

- Operated cash register accurately and efficiently
- Provided excellent customer service and resolved issues promptly
- Maintained a clean and organized checkout area and carefully bagged groceries
- Collaborated effectively with team members to ensure positive shopping experience
- Demonstrated strong attention to detail in handling cash and transactions
- Assisted with other duties such as stocking shelves and performing inventory checks

Volunteer Experience

September 2018 - June 2019
Robotics Programming Volunteer, Sheridan College.

- Programmed robots using ABB RobotStudio and Fanuc Roboguide software
- Assisted with setup and maintenance of robotic equipment
- Troubleshot and resolved technical issues with robots and programming code
- Collaborated effectively with team members to achieve project goals
- Reported volunteer hours to college coordinator
